

Hosting Responsibilities and Mutual Commitments

- Cities hosting delegation visits commit to planning and facilitating a professional programme that supports meaningful exchange of experience and knowledge
- Each city shall on an ongoing basis communicate its particular areas of expertise and thematic strengths within the network, enabling other cities to identify relevant competencies. This approach ensures quality, coherence and transparency in the cooperation

Financial Principles

- Visiting cities shall cover their own costs related to travel, accommodation, and meals outside the professional programme (breakfast and evening meals)
- The host city is expected to provide catering in connection with the professional programme, at a level appropriate to the nature and scale of the activity. No financial compensation is exchanged between the participating cities

Youth Component

The youth component is temporarily suspended pending the establishment of a sustainable co-operation model. Bilateral youth initiatives may continue independently of this network.

Review and Revision

This cooperation network may be revised and adjusted at the annual meetings of the mayors.
