Re: International Market

Dear Marín,

We are a company based in the United Kingdom and we organise over 50 International markets per year in various cities and towns throughout the country. We pride ourselves on being able to bring together the best traders from around the world selling the highest quality products. We find that both local residents and tourists alike enjoy our markets and they find that there is something to suit people of all tastes. We have traders selling a variety of foods as well as handmade arts and crafts, jewellery, clothes, etc. I have included some pictures at the end of this letter of markets we have held previously to allow you to see what we do. As you can see from some of the pictures we operate in the centre of Edinburgh where we find the market is extremely popular. Our aim is to hold a market which is designed to enrich and enhance the local community. We propose advertising our market to both tourists and local residents to help bring more people into the centre of Hafnarfjörður to experience the vibrant, friendly and truly unique atmosphere of the market. Our stallholders enjoy engaging with customers ensuring they make the right choice when browsing the high quality products on offer. The International market brings a boost to the local economy as the people who travel to visit the market will also visit the surrounding retailers and restaurants, thus increasing business in the area.

We would like to bring this extremely popular event to Iceland, touring the country in the same way as we currently tour Britain. We would like to visit Hafnarfjörður for one week in August this year, from Tuesday 12<sup>th</sup> to Sunday 17<sup>th</sup> inclusive, and we request permission to hold our market in the Thorsplan square.

All market stalls will be the same colour to provide a uniform look to the market and each stall will be decorated with the flag of the country where the goods are from. We pride ourselves on ensuring the market stalls are all well-presented and professional in appearance. The goods we propose to have in the market are:

Geek Olives, Turkish Baklava, Turkish Delight, Dried fruits and nuts

Haribo pick & mix

Italian biscuits

Indonesian arts and crafts

Italian style handbags & accessories

Spanish paella

German food

African wooden crafts

Our company information is shown below:
