Dear Colleague,

On behalf of the City of Tartu and myself I have the pleasure of inviting the representatives of our twin and partner cities to the "Light in the City" event taking place in Tartu on 7-9 May 2014.

It would be a genuine opportunity for the experts and specialists to meet each other and exchange ideas in the field of city lightning.

The "Light in the City" event is the second meeting of the EU project "Light in the City" aiming to raise public awareness of energy efficiency in urban lightning organized within the framework of the "Europe for Citizens" programme www.valonkaupunki.jyvaskyla.fi/english/projects/lic

The event begins on Wednesday, the 7th of May, with a welcome reception and night walk in the city. On Thursday, the 8th of May, the participants are given an opportunity to attend lectures and workshops, whereas Friday, the 9th of May, features a Nordic Lighting event illuminating several landmarks of Tartu. The final programme will be sent to you by the end of the year 2013. The tentative date for the registration to be opened is 1 February and closed 10 April 2014.

We would be happy to welcome two representatives from each of the twin and partner cities of Tartu at the event. The accommodation as well as the transportation Tallinn-Tartu-Tallinn will be organized and the costs covered by the City of Tartu.
