

THE OBSERVATORY OF THE EUROPEAN CHARTER FOR EQUALITY

★ Roadmap for the Network of National coordinators, 2013 ★

In view of the Gender Equality seminar that is going to be held in Stockholm on the 11-12th of November 2013, the secretariat of the Observatory has developed the following roadmap for the Network of National Coordinators. We kindly ask you to complete the tasks that are listed in this roadmap (including the evaluation sheet concerning the website) before the **17th of August**. Please note that some of the tasks listed in this Roadmap concern only those of you who have not already completed them. If you do not think you will have the capacities to complete some of the tasks listed in the roadmap, please inform the secretariat.

1. Provide a list of signatories particularly active in the work with the Charter (*at least 2 if there are more than 15 signatories in your country*), that would be good examples to share on the website
2. Send material/information on at least 1 implemented activity/project from signatory in your country (*the information should be quite extensive, an action plan does not count as an example of a good practice*)
3. In view of the Webinar on the 5th of September, please prepare information on how your national association is working to support the European Charter for equality and how (through trainings/seminars/conferences?)
 - If your national association is not working with the Charter, what are the main reasons for this? (lack of financial resources?, lack of human capacities?, please explain)
4. Describe the main difficulties that local and regional authorities in your country face in their work implementing the European Charter for Equality
5. Please answer the evaluation sheet (please see next page) of the Observatory website

OBSERVATORY WEBSITE

★ Evaluation sheet for National coordinators, June 2013 ★

1. Do you think that the website is easy to understand and navigate on?
2. Do you think that the website present useful information?
 - If not, what kind of information do you think is missing?
3. How do you think we could increase the response rate of signatories and encourage them to update their information in the Atlas over signatories?
4. Have you promoted the website to your network and how?
 - By informing local and regional authorities by email?
 - By adding a link to the Observatory website on your website?
 - By presenting/mentioning the website at meetings?
 - Other means?
 - If you have not yet done anything, do you plan to organize an event to promote the activities of the Observatory?
5. How do you think we could better link signatories that are very active in gender equality to promote their activities to each other?
6. Do you have any suggestions on how we could develop a strategy for the work with “Ambassadors” in order to promote the Charter?
 - Do you have any suggestions of persons that you think would be good Ambassadors of the Charter?
7. Could you please list some suggestions on methods that you suggest that we can add information about in the section “Methods and Evaluation”
8. Do you think it would be helpful to have a model of a “standard” action plan on the website?
9. Do you have any other suggestions on how we could improve the website and the Observatory’s work through the website?
