Please do accept our appreciation for the guided tour of sports facilities in Hafnarfjörður, which you graciously arranged at such short notice. We picked up some very useful lessons.

Let me also take this opportunity to welcome you to Kenya. It would be great for you to grace the official opening in September of Veslo School, which has been built with Icelandic charity to educate children from poor families.

We thank you most sincerely, once again, and look forward to your kind response.
